

Testable profiles for EPR Projectathon 2019

Preliminary remark: The focus of the EPR Projectathon 2019 in Bern lies on profiles and tests which are specific for the Swiss Electronic Patient Record EPR and cannot be tested at regular IHE Connectathons. Monitors will prioritize their test validation accordingly. If you still want to test standard IHE transactions, we encourage you to do so in pre-Projectathon-testing, against simulators during the Projectathon or at the IHE Connectathon in March 2020 in Bruxelles.

All specifications are listed on www.e-health-suisse.ch/specs.

Swiss XDS Metadata (Annex 3)
