

# eMedication Projectathon, March 2021: Available Tests

## Test Schedule

The complexity of the testing will be gradually increased, from no-peer to group tests. The schedule roughly looks like this; but will depend on the registered profiles and actors:

- ❖ **From Wednesday (10.3.) morning:** No-peer test
- ❖ **From Wednesday (10.3.) afternoon:** Peer-to-peer test
- ❖ **From Thursday (11.3.) noon:** Group test

## Available Tests

Name / Keyword	Based on	Peer Type	Actors
Create document  (CDA_Create_Name document; FHIR_Create_Name document)	<a href="#">existing EPR test</a> (adapted)	No-peer	Content Creator
Import document  (CDA_Import_Name document; FHIR_Import_Name document)	<a href="#">existing EPR test</a> (adapted)	No-peer	Content Consumer
Create and Import PDF view  (CDA_CreateImport_View PDF_Name document; FHIR_CreateImport_View PDF_Name document)	<a href="#">existing EPR test</a> (adapted)	Peer-to-peer	Content Creator, Content Consumer
Create and Import discrete data  (CDA_CreateImport_Data_Name document; FHIR_CreateImport_Data_Name document)	<a href="#">existing EPR test</a> (adapted)	Peer-to-peer	Content Creator, Content Consumer

Convert document <i>(CDAtoFHIR_Convert_Name document; FHIRtoCDA_Convert_Name document)</i>	<a href="#">existing EPR test</a> (part of test; adapted)	Peer-to-peer	Content Creator, Content Consumer (convert option)
Medication Treatment Change  <i>(Medication_UseCase_TreatmentChange)</i>	<a href="#">existing use Case from CH-EMED</a>	Group Test	Content Creator, Content Consumer
PHARM-1	<b>NEW</b>	Peer-to-peer	Prescription Placer, Pharmaceutical Adviser, Medication Dispenser, Medication Treatment Planner, Community Pharmacy Manager
PHARM-5	<b>No Test</b> (no implementation known yet)
